2. Mission Data as Flown: Article was launched at [] 25 May 1967. Landing time was [] Total flight time was [] hours of which 14 minutes were spent over denied territory. []

[] Only the first two flight lines were flown. The mission was aborted for weather at the North Vietnam - China border on the Gulf of Tonkin []

Only two of the COMOR targets programmed for coverage were photographed. Four bonus COMOR plus an additional eight targets were also covered. A total of 14 targets were picked up. The weather was worse than briefed which was the primary reason for aborting the mission. Forecast had called for Category II for about one-half of the flight lines and Category III for the remainder. Actual weather encountered over denied territory was Category IV and V.

7. Photo Quality Analysis:

a. On the Film Evaluation Report, [] reported the quality as good except for metering and data recording which was rated fair. Discrepancies noted were:

- (1) Metering was erratic on 9L.
- (2) 19 frames had double images on the data recorder.
- (3) Slight static on both edges of 9L and 9R detected.
- (4) A few pinholes were also apparent.

b. The Immediate Photo Interpretation Report submitted by [] reported the overall quality as fair with 55 percent cloud cover. All target photos obtained were considered fair or poor because of clouds, haze and/or obliquity. No discrepancies were reported on the "B-2" Configuration.

8. Maintenance: Article [] was scheduled and flown on Mission C187C.
